

Public Policy Series – II

July 11th, 2018

"Every public policy is meant to change or preserve something in the human society. When the policies are designed, they are designed assuming some chain of causality through which the desired change/end is achieved. . . . Ideal public policy-making involves anticipating the causal network to the fullest extent feasible. **Read on** to find out what Ronit Hazarika has to say about this."

RESEARCH ARTICLES

On Revisiting the Invisible Hand theorem

July 18th, 2018

This paper by Sreejith Sasidharan Nair assesses the invisible hand theorem and the emerging possibility of dual interpretations. Primary emphasis is put on drawing out the circumstances under which two interpretations are feasible. **Read on...**
